Log in

```
# Display your skills
cat(paste(skills, collapse = ", "))
```

Copy code

# My Collage

## Posts

```
{r}

# Display your posts
cat(paste(posts, collapse = "\n\n"))
```

Copy code

```
bash

### Step 5: Render the Quarto File

Render your portfolio:

```r
rmarkdown::render("portfolio.qmd")
```

Copy code

## Step 6: Set Up GitHub Pages

Follow the same steps as before to set up GitHub Pages, pushing your `.qmd` and any generated images.

## Step 7: View Your Portfolio

Access your portfolio via the GitHub Pages URL provided in the repository settings.
